

At Tyco Telecommunications,

Quality is everyone's job.

The Tyco Telecommunications Quality Policy

It is the goal of Tyco Telecommunications to continually deliver safe, effective, high-quality products and services, on time to our customers and internal operations.

Processes and controls shall be implemented such that tasks are performed properly the first time, so that products and services meet established agreed-to requirements.

Quality, customer satisfaction, continual improvement, maintaining the effectiveness of our quality management system, and compliance with customer, statutory and regulatory requirements, are the personal responsibility of every employee.
